

World Enduro Championship 2005, 1st race: Guadalajara/Spain

## **METZELER celebrates its great comeback in the Enduro World Championship.**

2/3 April 2005, Guadalajara (Spain) - Metzeler is leading the Championship in two classes after the first race in Spain last weekend.

We achieved this great result together with the strong KTM Factory team. Ivan Cervantes and David Knight took the first places in their categories, while Marko Tarkkala took the second right after David. Samuli Aro was third in the Enduro 2 class.

Metzeler other international partner Team Honda HM Zanardo was less lucky in the muddy Spain WEC. In general many riders took penalties in the most difficult transition section. The 65 km long track and the difficult weather conditions, with heavy rain and cold wind put the riders to severe test, which they were able to stand also thanks to the superior performance of the MCE 6Days tyres into the mud.

We are all looking forward to the 2nd race next weekend at Fatima/Portugal.

Knight and Cervantes in action.
